

INTRODUCTION TO WIC'S PACKAGE CONTENTS

FROM HOUSE PARTIES TO WEDDING RECEPTIONS, WEDDING CEREMONIES AND CORPORATE FUNCTIONS.

LIVE BAND

All except for the 1P band option, our packages are fronted by a male & female lead vocalist(s).

Song languages available mainly in English, Mandarin and Cantonese. Also available in a limited amount are Malay, the Hokkien dialect, Japanese, and Portuguese. Please, view our song repertoires. The band's song selection spreadsheet can be downloaded from our website.

The live band's song genres are wide; ranging from pop to rock ballads, bossa nova and swing jazz. However, these musical styles are limited by the basic band line-up which starts from a 1P band up to a 6P band ('P' represents the no. of performers); the bigger the band size, the more genre is possible.

EMCEE (HOSTING)

All our singers are also wedding emcees. One is bilingual, and another 2 are mono-lingual.

As for corporate dinner/event emceeing, you might want to check them out individually in their profiles.

PA SYSTEM

All packages shown in our menu covers PA system provision. This means you do not have to separately hire another one.

Omission of our PA system has to be discussed thoroughly to avoid any inadequacy for the live band's requirement.

BACKGROUND MUSIC (BGM)

The BGM department will also be taken care of by one of our musicians; you do not have to worry about having awkward silence or any inappropriate ambience throughout the event.

This includes the playing of the march-in songs via our own audio devices; You can have literally any song for the march-in(s) as long as it is available for download.

ITINERARY ARRANGEMENT/PLANNING

We are able to provide you with a smooth agenda-transition itinerary which can be generated as fast as within 24 hours. You only need to confirm your agendas and your march-in song(s).

Save your time from dwelling how long each agenda would be. You do not need to hire a planner for this itinerary arrangement. We know very well how long each agenda may take.

You only hire a planner if you find it hard to manage the budget, whereby you have a certain criteria or quality expectation in your vendors.

If you think you might have a lot of agendas because you love many of the agendas you see on social medias, then do consider having a coordinator instead. He or she will help you take care of the plans instead of actually planning the plans (which is what we can do for you).
