

WiC Live Band Package

HOUSE PARTY • WEDDING RECEPTION • WEDDING CEREMONY • CORPORATE FUNCTION

LIVE BAND

Every package is fronted by a male & female lead vocalist(s), except for the 1P (male) band option.

Songs we perform are mainly in English, Mandarin and Cantonese. We sometimes also perform songs in Malay, the Hokkien dialect, Japanese, and Portuguese. Please, view our song repertoires. The band's song selection spreadsheet can be downloaded from our website (live band and/or individual).

The live band's song genres are wide; ranging from pop to rock ballads, bossa nova and swing jazz. However, these musical styles are limited by the basic band line-up which starts from a 1P band up to a 6P band ('P' represents the no. of performers); the bigger the band size, the more genre is possible.

We bring our own instruments and equipment except for floor monitor (speakers & amps).

EMCEE

All of our singers are also proficient wedding emcees (bilingual and monolinguals available).

As for corporate dinner/event emceeing, you might want to check them out individually in their profiles.

PA SYSTEM

You do not have to separately hire another PA system. All packages shown in our menu includes PA system.

Please discuss with us if you hired your own PA System vendor – to avoid shortage in live band's requirement.

BACKGROUND MUSIC (BGM)

The BGM department will also be taken care of by one of our musicians; you do not have to worry about having awkward silence or any inappropriate ambience throughout the event.

This includes the playing of the march-in songs via our own audio devices; You can have literally any song for the march-in(s) as long as it is available for download.

ITINERARY

We are able to provide you with a smooth agenda-transition itinerary which can be generated as fast as within 24 hours (when our planner is available). You only need to confirm your agendas and your march-in song(s).

Save your time from dwelling how long each agenda would be. You do not need to hire a planner for this itinerary arrangement. You can count on us in knowing very well how long each agenda may take.

You only hire a planner if you find it hard to manage the budget, whereby you have a certain criteria or quality expectation in who you hire i.e. your vendors.

If you think you might have a lot of agendas because you love many of the agendas you see on social medias, then do consider having a coordinator instead. He or she will help you take care of the plans instead of actually planning the plans (which is what we can do for you).
